## **Objective**

As a recent graduate with a degree in Digital Narrative & Interactive Design and a minor in Computer Science, I am eager to leverage my technical and creative skills in a role that involves project management, software development, and UI design. I have proficiency in multiple programming languages, project management tools, and design software. Additionally, I have honed my communication, collaboration, and leadership skills while working with diverse teams. I am detail-oriented, highly organized, and I enjoy creative problem-solving. I am excited to explore opportunities to apply these skills and continue to learn and grow.

## **Education**

### **University of Pittsburgh – Main campus**

Bachelor's degree in Digital Narrative & Interactive Design  
Minor in Computer Science

Fall 2021- Spring 2023

GPA: 3.36

### **Community College of Allegheny County**

Associate degree in General Studies

Fall 2017- Fall 2020

GPA: 3.62

## **Key Skills**

### **Technical Skills:**

- Proficient in Java, C++, and Python.
- Experience with HTML CSS, and Javascript for web development.
- Familiarity with project management tools such as Trello and GitHub.
- Ability to create visually appealing designs, flow charts, and concept maps using software tools like Adobe Creative Suite, Figma, and Lucid.

### **Social Skills:**

- Native Arabic Speaker with advanced proficiency in English
- Effective communication and strong interpersonal skills, honed through public speaking classes and working with diverse teams.
- Leadership and collaboration during scrum sprints, enabling teams to stay on track and meet deadlines.
- Skilled at building relationships with stakeholders and clients, which was especially important during the research phases of my UI project.

### **Personal qualities:**

- Detail-oriented and highly organized, with a strong work ethic and a willingness to learn and adapt quickly.
- Able to manage time effectively and work well under pressure, while maintaining a positive and supportive attitude.
- Creative problem-solver who can think outside the box to develop innovative solutions.

## **Projects**

- Worked on a UI project that seeks to better align user experience across the triumvirate of open-source design tools (Scribus, Inkscape, and Gimp).
- Created a comprehensive concept map of automotive components, detailing their functions and relationships to enhance students' understanding.
- Applied expertise in multimedia editing techniques to various projects, spanning video, audio, and photo editing.
- Worked on a diverse range of challenging coursework projects that required the application of various coding algorithms and approaches.
- Designed and developed a personal website from scratch to showcase my portfolio, skills, and creative work.
